Education

Instituto Superior Pascal

Software Development Technician

Buenos Aires, Argentina

2022–2025

Workshops: Attended various workshops and online courses on AI, mobile development, and web technologies.

Summary

I am a Software Developer specializing in mobile app development, with around 3 years of experience building and deploying applications for both Android and iOS. My expertise lies in creating efficient, scalable, and user-friendly apps, always focusing on delivering high-quality results. I thrive on challenging projects and enjoy integrating the latest technologies, including artificial intelligence (AI), into mobile apps to enhance functionality and user experience.

Professional Experience

Innovasoft

Software Developer

Feb 2023–Present

- Developed and maintained mobile applications for Android and iOS using React Native.
- Led the development of mobile apps for *Class Limitless* and *Class Professors*, expanding the functionality of the existing web-based platform to mobile applications.
- These applications are now used by hundreds of students and professors in universities across LATAM.
- Supported apps built with Flutter, Java, and Objective-C.
- Deployed projects to the App Store and Google Play.
- Collaborated with teams to define features and ensure smooth performance across multiple platforms.

Vippinn

Mobile Developer

Aug 2022–Feb 2023

- Developed and deployed cross-platform mobile apps using React Native.
- Collaborated with cross-functional teams to gather requirements and implement features.
- Led the development of a mobile tourism app that connected via Bluetooth Low Energy (BLE) to beacons, retrieving location-specific information at tourist spots.
- Resolved software defects, implemented enhancements, and participated in software design meetings.
- Followed agile methodologies to deliver high-quality applications on time.

CoderHouse

React Native Tutor

Jun 2021–Jan 2023

- Supported and guided students enrolled in the Mobile Development course.
- Reviewed and provided feedback on challenges and assignments.
- Created engaging content for React Native classes.

WeHaus

Mobile Developer (Freelance)

Aug 2021–Dec 2021

- Designed, developed, and maintained a React Native application.
- Optimized existing functionality and introduced new features.
- Deployed the app to both the App Store and Google Play Store.

Technical Skills

Languages: JavaScript, TypeScript, Swift, Python

Frameworks: React Native, React, Next.js, Redux, SwiftUI

Backend: Node.js, Express

Databases: MongoDB, Firebase, realm

Development Tools: Git, GitHub Actions, Xcode, Android Studio

Others: RESTful APIs, Jest, Agile methodologies

Key Competencies

- Mobile/Web Development
- Cross-Platform Development
- Proactive and Self-Motivated
- Continuous Learning
- Excellent Communication Skills
- Agile & Scrum

Certifications

- **2022** – *React Native Course*, Platzi Link
- **2023** – *Backend with Node.js: API REST with Express.js*, Platzi Link
- **2023** – *SQL and MySQL Course*, Platzi Link
- **2024** – *Python Course: Comprehensions, Functions, and Error Handling*, Platzi Link
- **2024** – *Swift Programming Course*, Platzi Link
