About Me

Software Developer with over 4 years of experience building mobile applications for iOS and Android. Specialized in React Native, TypeScript, and modern mobile development frameworks. Strong skills in designing intuitive user interfaces, integrating RESTful APIs, and deploying applications to the App Store and Google Play. Experienced in collaborating with cross-functional teams and delivering high-quality products on time. Strong interest in the fintech industry, where I currently work, and creator of Numerala.app, a personal finance management project. Committed to continuous learning and staying up to date with the latest mobile development trends.

Professional Experience

Fiserv (via BP4)
Senior Mobile Developer — *Nov 2025–Present*

- Development and maintenance of cross-platform mobile applications using **React Native**.
- Implementation and optimization of **iOS and Android deployments**.
- Execution of testing and **debugging on real devices**.
- Active participation in technical and functional definition of new features.
- Ensuring product quality and an excellent user experience.

Banco Comafi (via Boreal IT)
Software Developer — *Feb 2025–Nov 2025*

- Responsible for the development and continuous improvement of the bank's mobile application for corporate clients, used by thousands of active users.
- Development and maintenance of the mobile app using React Native, optimizing performance and ensuring secure, high-quality user experiences.
- Collaboration with cross-functional teams to deliver scalable and reliable solutions.
- Contribution to backend development using Java, implementing and maintaining critical server-side functionalities that support core application features.

Innovasoft
Software Developer — *Feb 2023–Feb 2025*

- Led the development of mobile applications for *Class Limitless* and *Class Professors*, extending existing web platform functionality to mobile apps.
- Developed and maintained Android and iOS mobile applications using React Native.
- Provided support for applications built with Flutter, Java, and Objective-C.
- Deployed projects to the App Store and Google Play.
- Collaborated with teams to define features and ensure optimal performance across multiple platforms.

Vippinn
Mobile Developer — *Aug 2022–Feb 2023*

- Led the development of a tourism mobile application that connected via Bluetooth Low Energy (BLE) to beacons, retrieving location-based information at tourist points.
- Developed and deployed cross-platform mobile applications using React Native.
- Fixed software defects, implemented improvements, and participated in design meetings.
- Used agile methodologies to deliver high-quality applications on time.

CoderHouse
React Native Tutor — *Jun 2021–Jan 2023*

- Provided support and guidance to students in the Mobile Development course.
- Reviewed and provided feedback on assignments and challenges.
- Created educational content for React Native classes.

Education

Instituto Superior Pascal **Buenos Aires, Argentina**
Software Development Technician Degree *2022–2025*

Workshops: Participation in various workshops and online courses related to AI, mobile development, and web technologies.

Personal Projects

Numerala · Personal Project **Buenos Aires, Argentina · Remote**
Software Developer *Jan 2025–Present*

- Development of Numerala, a personal finance application with a web version (Next.js) and a mobile app in development (React Native).
- Backend implementation using Express, integrating secure and scalable APIs.
- Creation of intuitive user interfaces and development of authentication and data management features.
- Design, testing, and deployment of the web platform to production.
- The project achieved early user validation and was featured in digital media and local newspapers.

Technical Skills

TypeScript, JavaScript, React Native, React, Redux, Node.js, Express.js, Git, Swift, MongoDB
